FINANCE SOLUTIONS FOR THE INDUSTRIAL CLUSTER

Fabio Carletti – E.R-Amiat Finance Committee

The current situation

Innovation is critical to preserve the competitiveness of an industrial cluster in the actual world globalized arena.

To enhance and increase innovation a cluster needs to address several aspects, as human capital, infrastructures, a legal framework to protect rights and patents,

... finance dedicated to this specific purpose!

But actually, this resource is scarce and extremely expensive!

Question: What we can be do to find a solution?

A possible solution...

E.R-Amiat is in touch public and private Institutions in order to find finance for innovation and development projects.

We are discussing with/about:

- **EIB, Cassa Depositi e Prestiti (CdP), EU-DG research and innovation**
- **Cassa di Risparmio di Cento (RSI) – Cooperation with Eramiat to generate a cluster rating;**
- **Holding company / Fund on funds**

These solutions, also thanks to the intervention of the public, can become tools of industrial policy at National and European level!

In conclusion we are committed to:

- ✓ find finance solutions for innovative enterprises;**
- ✓ cooperate in the creation of a cluster rating;**
- ✓ spread the knowledge and use of financial instruments currently in place (RSFF, RSI, etc.);**
- ✓ study and use new schemes and paradigms for the development of industrial clusters with the contribution of public partners;**

Q & A

Thank you for your kind attention!
